I'm going to try to send it now, but it's very large. If the attachment doesn't go through let me know.

The updated GW model is Appendix J of this report.

Is it possible to share the GW model report Jackie mentioned as well?

Thanks,

Sorry I didn't send this sooner. I think Jackie said she'd send in EDD too, so will share those when I have them.

Hi Molly and Valarie,

Please find the data package we discussed on the call last week attached.

The data package includes:

- GW analytical summary tables from:
 - Pumping test well development prior to the pumping test
 - Pumping test samples collected during the beginning, middle and end of each pumping test
 - Perimeter groundwater sampling results
- All associated EDDs for these data in the USEPA Region V format (11 reports from ALS and 6 from SGS)
- A Site figure with all sampling locations for reference
- Slides from the call last week

Let me know if you have questions.

Have a great weekend!
Jackie
